Patricio Arévalo Ortiz

Fullstack Web Developer — Remote Ready

Argentina (UTC-3)
Email: arevalopatricio79@email.com
GitHub: https://github.com/MrToraso
Portfolio: https://tu-portfolio.vercel.app

Professional Summary

Fullstack Web Developer with hands-on experience building, deploying, and maintaining web applications using Python, Flask, and JavaScript.

Experienced in working independently, managing full project lifecycles from development to production deployment. Strong interest in AI-assisted workflows, data-driven applications, and scalable web solutions.

Actively seeking a remote developer position in collaborative, growth-oriented environments.

Technical Skills

Frontend:
HTML5, CSS3, JavaScript, Responsive Design

Backend:
Python, Flask, REST APIs

Data & Processing:
Pandas, CSV Processing, Data Visualization

Deployment & DevOps:
Git, GitHub, Render, Vercel, Gunicorn

AI Tools & Workflow:
ChatGPT, GitHub Copilot, Google Gemini

Projects

Torasoft CSV Analyzer (SaaS-style Data Tool)

Flask · Pandas · Chart.js · JavaScript
Live Demo: https://csv-analyzer-saas.onrender.com

- Developed a CSV analysis dashboard with drag-and-drop file upload.

- Implemented automated data processing and statistical summaries using Pandas.

- Generated dynamic data visualizations.

- Deployed to production using Render with Gunicorn.

Torasoft Weather Dashboard

Flask · JavaScript · API Integration
Live Demo: https://weather-dashboard-znlz.onrender.com

- Integrated real-time weather API data.

- Implemented dynamic UI behavior based on API responses.

- Designed interactive frontend with animated backgrounds.

Torasoft Password Generator

Python · Flask · JavaScript

Live Demo: https://password-generator-nlb3.onrender.com/

- Built a secure password generator with customizable options.

- Implemented backend validation and frontend strength indicator.

- Focused on UX and usability.

Cosmos Impresiones — Business Landing Page

HTML · CSS · JavaScript
Live Demo: https://cosmos-impresiones.netlify.app/

- Designed and developed a responsive landing page for a real small business.

- Structured layout for clarity and conversion.

- Deployed using Vercel.

Education & Training

Diploma in Software Development & Full Stack Programming
Instituto Tecnológico Tucumán

AI Immersion Program — Daxus Latam

Industry 4.0 & Digital Innovation — IngeLearn

Work Style & Strengths

- Comfortable working remotely and asynchronously

- Strong self-learning capability

- Production deployment experience
- Problem-solving mindset
- Clear written communication
